b. Class 53-6-R terminated 16 June. At a meeting of airmen instructors that date the Deputy Commander "chewed out" the Technical Training Section and particularly the two lieutenants in charge for running a (censored-"up") exercise. The airmen felt the criticism was entirely unwarranted, especially since Operations and Training, the Deputy's responsibility, had fouled up on transportation and rations.

c. The CO also held a meeting and announced that Commander MATS and Commander ARCS will visit [REDACTED] in late July for a fishing trip. When he asked what was causing dissatisfaction in the ranks, no airman volunteered a reason. Morale is not repeat not improving. (Among other things, the DCO has refused to acknowledge salutes of airmen.)
